DESIGN

WELCOME

NEW CLIENT QUESTIONNAIRE

Our goal is to customize your interiors to reflect your personal style. Don't know what it is? We'll help you develop it.

To begin the design process, I need to gather information about what you like and dislike, your preferences, and lifestyle. The more I know about you, the easier it is for me to create a design plan that fits within your personal style, budget & timeline. My goal is to maximize what you already have & create an interior space that embodies you.

This questionnaire will aid in our discovery process and be the first step in creating a personalized design plan. I look forward to working with you.

Please fill out this questionnaire as completely as you can. Email me your room photos and any inspiration photos.

CLIENT NAME: _____

WHAT DO YOU DISLIKE ABOUT THE CURRENT SPACE?

ADDITIONAL COMMENTS OR CONSIDERATIONS

M E E T D A R A

Dara Agruss Design is a full-service residential design studio specializing in family homes that balance beauty, comfort, and everyday livability. We create cohesive, thoughtfully curated interiors where elevated design meets real life, ensuring each space feels welcoming, personal, and effortlessly functional. Our work blends refined materials, layered textures, and intentional details to deliver homes that feel warm, modern, and deeply lived in.

Before launching the studio, Dara built a career as a classroom teacher, an experience that now shapes the clarity, communication, and empathy at the heart of our design process. Those years developed a deep understanding of how people think, learn, and make decisions, which naturally informs the way we guide clients through each phase of creating a home. While Dara had always been drawn to creativity and making things beautiful, interior design became the place where that instinct met her love of shaping meaningful, functional spaces.

Today, that foundation influences everything we do. We curate homes that reflect your style, support your lifestyle, and feel good to live in every single day.
